Fortune Uchegbu

FRONT-END DEVELOPER

fortuneuchegbu01@gmail.com • +234-811-708-1545 • My LinkedIn • My Portfolio

Frontend developer with a strong foundation in JavaScript, React, and modern UI development. Experienced in building interactive, responsive applications such as an interactive comments system, a URL shortener, and a React-based portfolio. Currently growing in React by building data-driven, real-world projects, with plans to advance into TypeScript, Next.js, and backend fundamentals. Skilled in problem-solving, debugging, and delivering clean, maintainable code.

Experience

SEP 2025 – OCT 2025
Internship | FATE Foundation

- Sourced weekly content ("Quote of the Week") for social media.

- Worked with the FATE Giving arm in the planning and drafting the structure for the final stage of the annual scholarship application.

- Used Outlook and Excel for scheduling, communication, and documentation of the interview stage.

- Supported administrative workflows and team operations.

2024 – PRESENT
Self-paced Frontend Development Training | Dot Campus Africa Ltd

- Scholarship-based learning with structured curriculum in frontend development.
- Built practical projects including an interactive comments system and URL shortener.
- Continued independent learning beyond the structured syllabus.

MARCH 2025
Volunteer | Harvest fields International

- Participated in mission outreaches to interior villages in Lagos and Ogun State.

2023 – 2024
Mentored Frontend Training

- Trained under a senior developer mentor with emphasis on self-learning and design precision.
- Completed projects based on design mockups from Dribbble, using Tailwind CSS and semantic HTML.

2017- PRESENT(PART-TIME)
Sales Assistant | Family Business – Retail Food Shop

- Managed daily sales operations and handled multiple customer transactions.

- Maintained inventory and assisted with stock management.

- Developed strong communication and multitasking skills.
